

Hydro14 | energy & enterprise

28-30th October 2014

Aberdeen Exhibition and Conference Centre, United Kingdom

22nd three-day conference and exhibition of the International Federation of Hydrographic Societies | Organised by **The Hydrographic Society UK**

conference | exhibition | workshops | technical visits | social events

Taking place in the Energy Capital of Europe, Hydro14 will comprise everything delegates expect from Hydro conferences: a Technical Programme featuring keynote and paper presentations, Workshops & Technical Visits, a 60+ stand Exhibition and a Social Programme including an Ice-Breaker Party, Reception at the magnificent Aberdeen Maritime Museum and Conference Dinner in the historic Elphinstone Hall.

Hydro14 also sees the introduction of two new regular features to the Hydro conference programme. An IHO-led **Session and Stakeholder Forum** will enable delegates to engage in a two-way dialogue with key personnel from the International Hydrographic Organization and help to inform their future policies. The **Student Presentations** session will offer those just setting out in the profession a valuable opportunity to present a paper to potential employers and leading names within the profession.

Visit the website for more information including:

- Booking a stand in the **Exhibition**
- **Sponsorship**
- Hosting a **Workshop** or **Technical Visit**
- **Hotel** accommodation
